

Various Locations on I-215 & I-80

Project Description: Asphalt shoulder preservation project

This project includes placing a slurry seal on the existing asphalt shoulders where concrete travel lanes are present on I-215 and I-80. The shoulders to be sealed are on I-80 from 1300 East to west of Stillman's Bridge and on I-215 between 3300 South and 4500 South. When complete the slurry seal will provide the appropriate seal, preserving and extending the shoulder life.

Total Project Budget: **\$500-thousand (current Commission approved amount)**

Anticipated Schedule: **Advertise Project – March 2006**
 Construction – Summer 2006

NOTE: Schedule information listed above is estimated and could change without notice based on funding, scheduling constraints, stakeholder issues, and other unanticipated project elements.
